FROM THE ARMY OF THE POTOMAC.

Our Losses in the Late Battles not so great as at First Reported-Rebell Using the Welden Read Below Reams' Station-Their Trials and Tribulations-The Rebel Dead of Thursday's Fight Left Unburied.

(Cerrespondence of the Associated Press.) HEADQUARTERS ARMY OF THE POTOMAC, Aug. 29-Evening.-The reports published in some of the newspapers that the losses of the Fifth Corps in the battles of the 18th, 19th, and 21st of the present month, reach five thousand, greatly exaggerate the facts. It is now defimitely ascertained that they do not exceed thirty-eight hundred, and as stragglers and others still continue to come in, and the sick are not all accounted for, it is believed that the aggregate loss in all these engagements will not ex-

ceed thirty-five hundred.

The less of the 2d corps in Thurday's fight will not exceed an aggregate of 1,500, according to the official statement, and it is hoped and believed that when all who are now within our lines report, 1,200 will embrace the entire

The rebels are said to be using the Weldon railroad below Ream's Station, and running their supplies thence to Petersburg around our left by wagon. As this requires a large force for train guards, and to defend the road against incursions of our cavalry, it cannot be either a very profitable or pleasant means of communication, without taking into consideration the loss of time involved. Arrangements have been made, it is under-

stood, for burying the rebel dead left on the field of last Thursday's battle. The fact that the enemy did not perform the funeres l rites for their own dead, nor carry off all their wounded on that occasion, is pretty palpable evidence that, although they drove back our Second Corps, they did not achieve any very complete or creditable victory. To-day nothing of interest has occurred. The usual cannonading and picket firing was rather more brisk, and continues this evening, but it is without any results of consequence.

FROM THE FRONT. The Charlotte Vanderbilt, with the army mail and passengers, arrived here this morning. She reports everything unusually quie up to ten o'clock yesterday morning, the hour at which she left City Point.

Squads of rebel deserters come into our lines daily, all of whom ask permission to be sent North. The Vanderbilt brought up fifteen of these deserters, who were sent to Provost Marshal Ingraham to be disposed of.

There are quite a number of rebel prisoners now at City Point, who are kept under a strict guard. They will be forwarded to the prisoners' camp at Point Lookout in a few days.

PERSONAL. - Secretary Seward has left Washington for a short visit to his home, at Auburn, New York

From Mobile we have details of Admiral Farragut's reconnoissance up the bay and a description of the obstructions between the city and Dog river bar. The Admiral does not find anything that would stop his reaching the city, should he undertake to do so. He had also succeeded in obtaining the services of the man who set the torpedoes for the rebels, and he is now engaged in taking them up.

Ishmael Day, who defended the flag of the Union at the time of Harry Gilmor's raid, and had his property destroyed therefor, is to be remunerated by an assessment upon the rebel sympathizers in Baltimore county.

A large number of the rebel prisoners at Elmira are said to be of a religious turn of mind, and have frequent prayer meetings; but a correspondent says they never pray for Jeff.

whackers on the north side of the Missouri An American won \$1,000 in a wrestling match with an Englishman, down in Jersey, few days ago.

OFFICIAL.

BEPARTMENT OF STATE, WASHINGTON, August 30, 1864. The following circular note of the 31st of July, addressed by Mr. PACHECO, her Catholic Majesty's Minister for Foreign Affairs, to Mr. PERRY, Charge d'Affaires of the United States at Madrid, on the subject of new regulations at the Forts of Tarifa and Isla Verde, in the Straits of Gibraltar, is published for the information of American ship captains trading

to the Mediterranean: [TRANSLATION.] Department of State-(Circular SAN ILDEFONSO, 31 July, 1864.

DEAR SIE: Having brought to the knowl. edge of the Secretary of War the action taken on various occasions near the Government of her Majesty by some foreign representatives accredited to this coart, with the object of introducing some favorable modification of the rules observed at the fortress of Tarifa and Isla Verde to oblige vessels navigating the jurisdictional waters of those fortresses to hoist the flag of their nation, a practice which they often neglect, alleging a very improbable ignorance in vessels which so repeatedly pass the straits, the aforesaid Secretary replied to me, under date of 21st ultimo, that the Department in his charge and at that date had issued to the Captain General of Andalusia, who has under his immediate command the fortresses of Tarifa and Isla Verde, the instructions following, to which in future the commandants of the said fortresses will adhere:

1st. To every vessel which on crossing the line of said fortresses, within range of its cannon does not show the flag of her nation, (the Spanish flag floating over the fortress,) notice shall be given of the neglect she is falling into by discharging a cannon loaded with powder only. 2d. If after the lapse of ten minutes she should

not have hoisted her flag, a shotted gun shall be fired ahead and across her prow. 3d. If notwithstanding these two indicated notices and the lapse of another ten minutes she omits to hoist the flag, a third discharge with ball shall be fired at her masts.

In bringing the preceding disposition to your knowledge so that you may give a translation of them to the Government of the American Union, the Queen, my Sovereign Lady, flatters herself that the Cabinet of Washington will and in the measure adopted a fresh preof of the sentiments of deference which her Government entertains for the nation you so worthily

I avail of this occasion to offer you the assurances of my distinguished consideration. I. F. PACHECO. To the Charge d'Affaires of the United States

CIRCULAR.

In accordance with instructions from Brigadier General D. H. Bucker, Chief Quartermaster, Depot of Washington, I have placed schooners at Upper and Lower Cedar Points, in the positions occupied by the light boats, previous to their destruction by the rebels.

From sunset until sunrise a light will be swung from each of the schooners. The reason given by captains of vessels, chartered and owned by the United States Quartermaster Department, for archering in the Petomac river at night, was, that they feared that they would run their vessels aground if they attemped to run past the shoals after dark. The lamps placed on the schooners will give a light sufficiently strong to enable all pilots to pass up and down the river with safety, provided by United States Coast Survey.

From and after this date, no vessel propelled by steam will be allowed to suchor, excepting in such weather as by running the loss of the vessel or cargo might be endangered.

All masters of vessels are directed to report any neglect on the part of the parties on hoard of the light schooners, in not beeples their lights burning at all hours of the night.

A cepy of this circular will be kept posted in the pilot boure of every vessel owned and chartered by the Government, plying on the Potomac river.

meney. These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bends, redeemable after five and payable twenty years from August 15, 1867.

The Notes will be issued in the denominations of fifty, one hundred, five hundred, one thousand and five thousand dollars, and will be issued in blank, or payable to order, as may be directed by the sub-

scribers. All subscription must be for fifty dollars, or

some multiple of fifty dollars. Duplicate certificates will be issued for all deposites. The party depositing must endorse upon the eriginal certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endersed it must be left with the officer receiving the deposit, to be

forwarded to this Department. The notes will be transmitted to the owners free of transportation charges as soon after the receip of the original Certificates of Deposit as they can be prepared.

Interest will be allowed to August 15 on all deposits made prior to that date, and will be paid by the Department upon receipt of the original certificates. As the notes draw interest from August 15, per-

sons making deposits subsequent to that date

must pay the interest accrued from date of note to date of deposit. Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by this Department upon the receipt of a bill for the amount, certified to by

the officer with whom the deposit was made. No deductions for commissions must be made from the deposits. Officers receiving deposits will see that the proper endorsements are made upon the original certificates.

All officers authorized to receive deposits are requested to give to applicants all desired information, and afford every facility for making subscriptions. W. P. FESSENDEN, Secretary of the Treasury. Jy 26-tf

Further Particulars of the Nomination of McClellan-Gov. Seymour Endorses the Nemination of McClellan-Hon. George H. Pendleton, of Ohio. Nominated for the Vice Presidency. CHICAGO, 1 o'clock .- The Convention reas-

sembled at 10 o'clock. The Wigwam was densely packed, and the crowd outside greater than ever. Immediately after the Convention was called to order prayer was offered by Rev. Dr. Haley, of Chicago. Mr. Wickliffe said the delegates from the

West were of the opinion that circumstances may occur between now and the 4th of March next for the Democracy of the country to meet in convention again, and he therefore moved the following resolution, which was unanimously adopted: Resolved, That this Convention shall not be dissolved by adjournment at the close of its

business, but shall remain organized, subject to be called at any time and place that the Executive National Committee shall designate. The president then stated the question before the Convention to be on ordering the previous question to proceed to the nomination of a candidate for the Presidency, and it was ordered without dissent.

The vote was then taken by States-the chairman of each delegation announcing the vote of each State as they were called. The final result was announced as follows:-Maine-5 for McClellan. Wheeler Operating in Kentucky. LOUISVILLE, August 30.—Passengers on the Nashville train say that Wheeler, with his entire force, appeared at the bend of the Comberland river, three miles below Gallatin, captured a company of Federal troops, and were attempting to cross the river this morning for an advance upon Gallatin.

This force is variously estimated at from five to twelve thousand men. The former number is probably nearly correct.

A report has reached Cave City, Ky., that the colonel commanding the post of Galiatin has ordered the depot there to be burned, as it was without the range of his guns.

LOCAL NEWS.

ANOTHER MEETING OF THE UNTERRIPIED-Rush of Converts to the Democratic Wignam—
Dismay of the Original Jacobs'.—A meeting of
the National Democratic Association was held
last evening at their hall, opposite the Metropolitan Hotel, and it was largely attended—the
most of the crowd being on hand waiting the
news from Chicago. The non-arrival of the
news of the selection of a candidate for the
Presidency restroined the display of the news Presidency postponed the display of the new mag, as was contemplated, but in front of the hall a new transparency was displayed bear-ing a representation of an open book, on the pages of which were the words, "The Union and the Constitution."

In the absence of the president, John F. Oallan was called to the chair, and W. H. Minnix acted as secretary.

An invitation was given to persons to sign the constitution and become members, when over thirty walked forward to the secretary's

Among the signers were some most unexpected ones, apparently, and the Original acobs of the association expressed considerable sotto roce disgust at the turn things were taking. Muttered exclamations of "confound it, just look at that man signing!" "Yes, he was the inkiest kind of Wigwam wooley-head, four years ago!" "Oh they'll rush in on us as the Bell and Everett crowd did into the Republican Wigwam, after the September elections last time!" "We shan't stand half a chance !" "There's another of 'em! Ain't he an enthusiastic convert, subscribing \$2 to the association and \$5 for the celebration, Oh thunder!"

And so the comments ran around. In fact the "faithful from the start" seemed decidedly aneasy lest these "eleventh hour laborers" and "latter day saints" should be accepted on pay-day as equally worthy with themselves, who had borne the heat and burden of the day The business first in order was the consid eration of the resolutions offered by Dr. Clayton, declaring it to be the duty of the Govern ment to take immediate steps to exchange prisoners, who are now dying rapidly, which resolutions were under consideration on the adjournment of the previous meeting; and they were taken up, when Mr. D. Rutherford moved to lay them on the

table; lost-yeas 18, nays 21. Mr. Lakenan was opposed to accumulating a load on an overloaded horse, and thought the resolutions should not have been introduced there, although he privately endorsed them. and he believed every Democrat individually seconded him. The association had nothing to do with the prisoners, and it could not aid them. The more who die the more sin the Government would have to answer for. He was opposed to taking action on anything in which the Democratic party was not con-

cerned. Mr. John Davis asked if these resolutions did not concern the Democracy. The condition of our fellow-beings concerned every American citizen, and he sppealed to the president if it were noted.

The chart (Mr. Callan.) It is our business most decidedly.

Mr. Clayton said that the resolutions would not be without their effect, and explained that they were intended to fix the responsibility on the Administration. Mr. J. H. G. McCutcheon asked if the Chi-

RAILWAY DISTRIBUTING POST OFFICE .-Hon. A. N. Zevely, Third Assistant Postmaster General, some time ago conceived the idea of facilitating the transmission and prompt delivery of letters, newspapers and mail matter generally between this city and New York and intermediate points by a system of rail car distributing post offices, whereby the work of stamping, assorting and distributing mail matter will be done in a ear prepared for the purpose while the train is in motion. One of the new cars for the purpose was at the Baltimore and Ohio railroad depot last night, and was visited by high officials of the Post Office Department, and by a number of railroad men and invited guests, who were warm in their approbation of not only the system about to be inaugurated but of the workmanship of the car and the commodious and perfect manner

in which the interior is arranged.

The car was constructed at the car-works of the Baltimore and Ohio Railroad Co., at Mount Clare, and was completed on Saturday last, and is now being run over the road to wear off the roughness. The dimensions of the car are 45 feet 5 inches in length in the clear by 9 feet 1 inches wide, with a height of about 7 feet at either side, but, it being on the "double-decker" principle, the center is fully 9 feet. On either side are words informing the public that it is the "through line between New York and Washington." There are also the usual apertures through which letters may be conve-niently dropped in for mailing. In the inside are two cases, each containing two hundred 'pigeon holes," of rather larger size than ordinary, and forty boxes, each one foot square, so arranged that the matter placed in them cannot be jostled out by the motion of the car. There is in front of each case a narrow shell for the accommodation of the clerks, with drawers beneath and hooks for the mail pouches, while on the opposite side is a large table for stamping purposes. There are also closets for clothes, sofas, water coolers, and every convenience for those who shall travel with the car; and it is fitted up with the most approved ventilating windows.

As soon as the train starts the clerks assigned to duty in this novel postoffice will commence the distribution of all matter into boxes for the several localities to which the matter is directed. The way mails will be made up first, and at each station mail matter intended for the particular locality will be put off, and matter for other points on the route received. The great advantage of this system is that correspondents can mail their letters at the last moment, and even when the car may be moving off, yet with the assurance that all letters will reach their destination safely and with unusual dispatch. This city will reap many advantages from the system, for all mail matter for the Departments and for citizens will be arranged upon the cars, and will be handed to the several carriers and messengers within five minutes after the arrival of the mail. So at New York, for at that end of the route also

a similar distribution will take place. The carnow here was fitted up at the expense of the Baltimore and Ohio Railread, under the direction of Messrs. W. P. Smith and F. Perkins, from the design of Hon. A. N. Zevely, Third Assistant Postmaster General, who will personally superintend the inauguration of the ystem. In a short time a similar car, now building at the works of the Camden and Amboy Rathroad, will be completed, and as soon as it arrives here the plan will be carried into effect.

This is an entirely new arrangement in this part of the country, although on some of the Western roads smaller cars are running, and the system has been found very successful

Last spring an experimental trip was made in one of the ordinary cars of the road, between this city and New York. Notwithstanding the novelty of the thing, and the fact that the clerks worked under disadvantages from the motion of the car, the experiment was a very successful one, over 5,000 letters being distributed each trip; and this, too, when they had not one one-eighth of the conveniences to be afforded by the new car.

It is really someting "new under the sun." and thousands who often are annoyed by reason of delayed mails will thank Postmaster General Blair, Mr. Zevely, and City Postmaster Bowen, for the inauguration of the new system.

YOUNG HOTEL THIEVES .- Last night, Augustus F. Boyle and George W. Dabbs, 17 and 18 years of age respectively, were arrested by officers McColgan and McElfresh, as suspicious characters, and taken to the Fourth Ward station. This morning they were identified as parties suspected of robberies at the United States Hotel and the Pennsylvania House, by which gentlemen were deprived of watches and money to a considerable amount within a faw weeks. One of the watches stolen at the United States was found on Boyle and identified. Boyle kept a diary of his travels and tricks, which the police think will implicate him in several other robberies.

George W. Dabbs is a very sharp fellow. Some time ago he was arrested by the 4th Ward police, but escaped from the cells. He was also on another occasion sent to jail, and escaped from there. He has been going about stopping at various hotels, under various aliases, and Justice Giberson sent him to jail for court under the name of George W. Dabbs alias George Clark, and Augustus F. Boyle.

ARERST AND ESCAPE .- Yesterday, a fight occurred on L, between 1st and 3d, caused by a difficulty at Loeffler's Garden Sunday night Daniel Hanrahan was shot in the left arm. paniel Hanranan was snot in the left arm, above the elbow, inflicting a severe wound. James Gormley and — Johnson were arrected by officers Hurley and Sullivan, of the 2d and 6th Precincts, and were confined at the 2d Precinct Station. Last night both effected that escape. their escape. A young man named fones, who was arrested on suspicion of being in the fight, also escaped from the Stationhouse. The Stationhouse cells are very insecure.

PRES AND EASY.-Last night a large compe ny of the colored fancy met in the ranche in the alley between Pennsylvania and Misseuri avenues and 6th street, kept by a white man named Dickerson. The building fronts on 6th street, and was formerly a warehouse, but it is now a double restaurant, the front entrance opening to the bar fer white persons, the back entrance to the "colored bar." The officers say that the place is a cause of much complaint, and a very great annoyance to the neighborhood, by reason of the noisy conduct of the colored fancy that congregate there. Rounds-man Eckloff, with a squad of the Fourth Ward-police, surrounded the ranche about half-past. 10 o'clock, and bagged twenty-one of the com-pany-fifteen males and six females—who were conducted to the station house in all their finery. This morning Justice Giberson gave them a hearing, and fined each \$5.58 for their disorderly conduct. N. B. Witham, the manager and bartender of the house, found in charge last night, was brought up this morning. As he was only an employee, he was dismissed and notified that the house will be

BURGLARY .- George Thompson and Francis Slavin were arrested yesterday by officer Howard for breaking into the house of Wm. Denahoo, near Kendall Green, and stealing hirty one dollars. Slavin confessed that he broke in the house but that Thompson had nothing to do with it. Justice Giberson sent Slavin to jail for court and dismissed Thomp-

The patrol on the Maryland side were waiting for them to reach the shore to arrest them, and while looking at the fugitives, saw three of them sink and disappear. The patrol tried to save them, but their efforts were in vain. They secured the seven who reached he shore, and carried them to Forrest Hall, to be disposed of by Provost Marshal Littler. Last night, the fine band of the 9th V. R. C., Prof. River, came from Camp Fry and ser naded Major Littler at his office, Mayor Addison, and other prominent citizens.

by officer Leishear, for shooting James Boyle, at the Keystone Restaurant, corner of Greene and Bridge streets. Phillips is held in custody to await the result of the wound and an examination. Phillips says he and Boyle were playing. Boyle trying to get the pistol from Phillips, each had hold of it, when Boyle gave it a sudden push toward Phillips, and it ex-ploded, the ball entering Boyle's abdomen and passing entirely through him. Phillips says that three barrels were loaded, but he thinks there was no cap on either, and he cannot account for the explosion. Boyle was immediately placed under surgical care, and may possibly recover.
